PROFILE

Final-year Computer Science and Data Science student with hands-on experience building full-stack, backend, and AI-powered applications using Java, Python, Next.js, FastAPI, and PostgreSQL. Experienced in REST API integration, debugging, and Git-based workflows. Seeking a Trainee Software Engineer role in SaaS product development.

PROFESSIONAL EXPERIENCE

HCLTech Oct 2025 - Jan 2026
Project Intern Virtual

- Contributed to an AI-powered physical and mental health monitoring application using Python, FastAPI, machine learning, Generative AI, and agent-based workflows.
- Developed backend AI modules for mood analysis, wellness recommendations, anomaly detection, and automated weekly health summaries.
- Supported API integration, debugging, testing, technical documentation, and collaborative feature development.

EDUCATION

Mahatma Gandhi Institute of Technology 2023 - 2027
B.Tech in Computer Science and Data Science
CGPA: 8.77

Delhi Public School, Nacharam 2023
CBSE Class XII | Percentage: 91%

Delhi Public School, Nacharam 2021
CBSE Class X | Percentage: 90%

SKILLS

Programming: Java, Python, JavaScript, TypeScript, SQL, C

Development: Next.js, React.js, Node.js, Express.js, FastAPI, REST APIs, HTML, CSS

AI/ML: Machine Learning, Generative AI, LLMs, Scikit-learn, Data Analysis

Databases and Tools: PostgreSQL, MySQL, MongoDB, Prisma, Git, GitHub, Docker, Postman, VS Code

Core Concepts: Data Structures and Algorithms, Object-Oriented Programming, DBMS, API Integration, Debugging and Testing

CERTIFICATIONS

Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate
Oracle University Oct 2025

The Complete Python Bootcamp: From Zero to Hero in Python
Udemy | 22.5 hours

PROJECTS

BakeFlow AI - Bakery Operations and Inventory Platform

- Building a full-stack SaaS-style system for bakery orders, recipes, ingredient inventory, production planning, purchasing, customer history, and business insights.
- Implemented order-based inventory reservation, automatic ingredient consumption, stock movements, recipe snapshots, and business-aware AI assistance.

Tools: Next.js, TypeScript, Prisma, PostgreSQL, REST APIs

Intelligent Complaint Management System

- Built a machine-learning complaint classifier using TF-IDF and a linear model, exposed through FastAPI for automatic department routing.
- Integrated the prediction service with a Node.js/Express backend to generate ticket IDs, assign departments, and track complaint status.

Tools: Python, TF-IDF, FastAPI, Node.js, Express.js

Personal Finance Manager

- Developed a responsive full-stack application for tracking income, expenses, and budgets with dashboards.

Tools: Next.js, React, Tailwind CSS, Drizzle ORM, PostgreSQL
